

## **PUREWAX HDX (PULLUP WAX)**

**PUREWAX-HDX** is a blend of Synthetic and natural wax and oils and special waxes which provides extra dark pull-up and waxy feel to the coated leathers

### **CHARACTERISTICS:**

Appearance	:	Brown soft wax
Nature	:	Natural and Synthetic waxes and synthetic oils Solvent dilutable
Solid content	:	100%
Solubility	:	Solvent Solubale

- **PUREWAX-HDX** is solvent dilutable blend of special oils and waxes which designed for providing extra dark pull-up effect on leather.
- **PUREWAX-HDX** is normally applied on leather with the help of heated roller coated leathers are dried and aired off over night and then plated at 100°C-120°C/50bar or finiflexed at 130°C to get the desired effect.
- A second coat and subsequent plating may also be required for heavy Stuffed leathers or for leathers with high/uneven absorption.
- **PUREWAX-HDX** confers warm and waxy touch to the leather. Leather defects are effectively masked due to the darkening provided by it after plating. Leather coated with **PUREWAX-HDX** do not develop bad smell even on prolonged aging.
- The leather coated with **PUREWAX-HDX** may be finished lightly with carefully prepared season of protein or resin binders followed by fixing with for malin or lacquer emulsion. Passing through contilux will result in the leather having pleasant handle and gloss.

### **SUGGESTED APPLICATION :**

Apply as such on stuffed leathers with the help of heated roller coating machine. Air off over night, kiss plate at high temperature, apply one more coat if required, contilux at 125C/50bar.

### **SHELF LIFE:**

12 months when stored free from moisture in a dry, cool place in closed containers at ambient temperature.

As practices vary from tannery to tannery, we recommend that our suggestions be tested before commercial use. All information is without Liability.
