## **PURROTAN - AN**

### **AMPHOTERIC SYNTHETIC TANNING AGENT**

Product name	: <b>PURROTAN – AN</b>
Appearance	: Pale Yellow powder
Moisture Content	: 8.0% Max
pH	: In 10% aqueous Solution 3.3 - 3.7
Solubility	: Excellent
Light Fastness	: Excellent

#### **Properties :**

**PURROTAN - AN** has got all the properties of a full replacement syntan. Its amphoteric characteristic allows an early application before or during reneutralization and thus the early strengthening of the fibres immediately prevents any further looseness of the leather. **PURROTAN - AN** can be favorably combined with other syntans. Vegetable tanning and acrylic resin as well. **PURROTAN - AN** has got good filling and dispersing effects. It is very well adapted to the re-tanning process of the we blue leather. The leather re-tanned with **PURROTAN - AN** has good light fastness and imparts a brilliant and clear shade.

#### **Safety :**

A non hazard product can be handled with normal care. Any contact with eyes and / or spillage on skin should be washed thoroughly in running water.

#### **Storage :**

1 year shelf like when stored indoors in sealed containers. Product from moisture and exposure to sunlight.
