

PUROFIL - B

PROTEIN FILLER WITH SELECTIVE FILLING AGENT

Product Name	: PUROFIL-B Natural protein with selective filler
Appearance	: light yellow powder
Concentration	: 94 - 98 %
pH of 10% solution	: 6.5 ± 1.0
Solubility	: Easily dispersible in Luke warm water

Properties :

PUROFIL- B is deposited in the empty parts of the skin, and between grain and the reticular layer. **PUROFIL - B** can be added to the chrome tannage, chrome free tannage or retannage to get the Full, round handle, to get the reduced number of growth mark and improved the selection, to get smooth fine and firm grain and to get better cutting value. **PUROFIL - B** when used in retanning the tightness of fibers is improved and hence it imparts short nap on suede and nubuck. **PUROFIL - B** does not bleach the shades as it has got its own receptivity to dyes.

Storage :

12 months when stored free from moisture in a dry, cool place in closed containers at ambient temperature. As practices vary from tannery to tannery, we recommend that our 56 suggestions be tested before commercial use. All information are without liability.
