

PUROTAN - PP

DESIGNED FOR THE PRETANNING OF ALL TYPES OF VEGETABLE TANNED LEATHER.

Product Name : **PUROTAN - PP**
Appearance : Off white powder
Character : Good.
pH of 10% solution : In 10% aqueous solution, 3.0 - 4.0 Active matter (%w/w) - 6.0% Max.

Properties :

PUROTAN - PP is a powdered syntan with the property of conditioning pelts to facilitate the subsequent vegetable tannage. It has a strong dispersing effect of vegetable extracts, which will then penetrate rapidly through the pelt.) **PUROTAN-PP** is non- astringent and is readily soluble. So, it may be added directly to delimed pelt through the drum. The conditioning effect of **PUROTAN-PP** neutralizes the residual lime in the pelt and its buffering capacity allows the subsequent vegetable to penetrate more uniform **PUROTAN - PP** gives a strong pre tanning effect allowing subsequent vegetable tannage by classical process as well as by rapid process. In addition **PUROTAN-PP** reduces the possibility of copper and iron stains in subsequent vegetable tanning.

Safety :

A non hazard product can be handled with normal care. Any contact with eyes and / or spillage on skin should be washed thoroughly in running water.

Storage :

1 year shelf like when stored indoors in sealed containers. Product from moisture and exposure to sunlight.

APPLICATION :

% based on pelt weight

EI Tanning

2- 4% For EI tanning
