

PUROTAN-R7

DICYNAMIDE BASE TANNING CUM FILLING AGENT

FOR THE RETANNAGE OF ALL TYPES OF LEATHRS

Product name : **PUROTAN - R7** - Based on nitrogen containing polymeric resin

Appearance : Pale brown powder

Concentration : $95 \pm 1\%$

pH of 10% solution : 8.0 -8.5

Properties :

PUROTAN - R7 has a selective filling action, mainly depositing itself in the loose structured parts of the leather. **PUROTAN- R7** improves the fullness of chrome leather and tightens the grain at the same time retaining the chrome leather characteristics. Due to its non-astringent nature, there is no drawn grain effect. **PUROTAN - R7** imparts good level dyeing properties, good buff ability and makes the leather respond favorably to finishing.

Safety :

A non hazard product can be handled with normal care. Any contact with eyes and / or spillage on skin should be washed thoroughly in running water.

Storage :

1 year shelf life when stored indoors in sealed containers. Protect from moisture and exposure to sunlight.

APPLICATION :

% based on shaved weight
