

TECHNICAL DATA SHEET

PURO PEN-39

| | |
|---------------|---------------------|
| Appearance | : Colourless Liquid |
| Solids | : 33% |
| PH | : 7 |
| Film Hardness | : Penetrator |

Characteristics :

PURO PEN-39 is a colourless liquid which is useful as a good carrying agent in the impregnation and spray dyeing of leather. It has good compatibility with resins and other binders and may be used in padding, spraying, roller coating.

PURO PEN-39 a colourless liquid which has a strong penetration effect. Useful for impregnation. The rate of penetration is fast and hence can be used for improving observations during impregnation.
